

Commercial Pest Prevention Initial Training Guide

Trainer's Guide: Instructions for the Manager

The **Commercial Pest Prevention Initial Training Program** is a ten-day program designed to prepare new team members for independent fieldwork. As the manager or designated trainer, you are responsible for providing direct supervision, ensuring all safety procedures are followed, and verifying the completion and upload of all coursework, checklists, and certifications.

Manager Responsibilities

- **Daily Interaction:** Spend time with the new team member each day to confirm that learning objectives and required activities are being met.
- **Efficient Time Management:** Ensure the team member spends their time engaged in training activities.
- **Delegation:** If you are unavailable, assign the team member to someone who understands it is their responsibility to teach, coach, and meet that day's objectives. Remember to follow up with that team member to learn how that activity went and know your next steps.
- **Progress Monitoring:** Keep training on schedule and obtain daily feedback from the team member, addressing any concerns promptly.
- **Readiness for Fieldwork:** If, at the end of six weeks, the team member is not prepared to work unsupervised, extend the program until you are confident, they can perform their responsibilities and deliver excellent customer service.
- **Documentation:** Correctly completing and submitting initial training documents like licensing applications and field training checklists *on time*.
 - Ensure all completed forms are scanned and then submitted to the **Initial Training Paperwork Upload Portal** which can be found on **Armyant (the intranet)**, the MLO homepage, or at the top any state initial training page.
 - These items are noted with  in the Training Guide to help you know when to submit them.

Day One Requirements

- Sign the team member into **Massey University**.
- Print any required state documents for completion.
- Print **CHK 2008 Pest Prevention Initial Field Training Checklists**.
- Issue all assigned tools, PPE, and equipment.
- Begin field observation and classroom learning

Training Components

- Classroom training in Massey University at the service center or on the iPad in the field.
- Field training under direct supervision.
- Use of the **initial field training checklists** to guide daily field activities.
- Uploading of all completed state and/or regulatory ad licensing documents into Massey Initial Training Paperwork Portal when indicated.

⚠ Follow the Program! Do not rush a new team member through training. The first few weeks set the foundation for their long-term success and service quality.

Initial Field Training Checklists

All **Initial Field Training Checklists** are available for download in the **Printable Resources** section of this guide. Each checklist includes directions on the front page explaining its use.

- Once all sections are finished, **scan and upload** the checklist to the **Initial Training Paperwork Upload Portal**.
- Complete each checklist section as indicated in the Training Guide schedule.
- Provide **dates, times, and comments** where required. Comments should be detailed, specific, and legible.
- Verify that all required fields are complete before progressing.
- Write clearly! Incomplete or unreadable checklists may be considered invalid.

Lesson Schedule

- Follow the schedule provided.
- Lessons are designed to be completed over time.
 - **Do not allow more than the assigned lessons each day.**
- Completing too many lessons in one sitting reduces retention and is poor training.

⚠ Exception: There may be days during the training period that keeps the team member from going to the field to train. In these cases, they may complete more than a day's allotted lessons, but no more than two days' worth in one sitting.

Training Guide: Schedule

This day-by-day guide details the required online service training courses, field training checklists, and any licensing and certification documents. Use it to monitor progress and ensure timely completion of each item. Upload completed files as scheduled.

Day 1

- LIC 3000 Licensing Application Authorization
- LIC 3002 State Licensing Applications: Pest Commercial ▲
 - What do you submit for your team member?
